Procedure for Accessing RxFiles+ (RxFiles-PLUS) App via IP login

For *Apple* and *Android* platforms.

<table>
<tr><td>Step ❶
Download the app.</td><td>Download the RxFiles+ app to your mobile device.
Apple Platform
https://itunes.apple.com/ca/app/rxfiles-+/id1039875266?mt=8

Android Platform (via Google Play)
https://play.google.com/store/apps/details?id=com.pi.rxfilesplus&hl=en</td></tr>
<tr><td>Step ❷
Login.</td><td>On your mobile device, visit rxfiles.ca while at your recognized IP site.
You must visit our website while physically at the location that provides you automatic IP recognition login.
You must be connected by WiFi, not cellular data – otherwise your IP location is unlikely to be recognized.
You must do this step on the browser of your mobile device – not on your desktop computer.
You will know you are on the right track if you see the name of your workplace inside the 'login' box at rxfiles.ca.</td></tr>
<tr><td>Step ❸
Activate the app.</td><td>Step ❹
Use the app.</td></tr>
<tr><td>Scroll down to the bottom of rxfiles.ca. Click on "Activate IOS/ Android App". Allow your mobile device to open the RxFiles+ App.
 </td><td>The first screen of the app will ask you for login info. Hit cancel.

The app should now say "unlocked from verified IP".

The app will be active for 3 months. After this, you will have to re-activate (i.e. repeat starting from Step 2).
 </td></tr>
</table>

To get current chart versions, hit the "**Check for Updates**" button within the app menu. Check for updates periodically. Note – the app features the ongoing updated RxFiles Drug Comparison Charts. Remember there is more information (newsletter, Q&As, trial summaries) on our website.
