

Borrow a Laptop and Other Equipment Script

Did you know that you can borrow a laptop and other equipment from the Library? Current UPEI students, faculty, and staff can borrow PC laptops & Chromebooks from the Service Desk in the Library.

Laptops are available on a first come first serve basis and can be borrowed for a 28-day loan period.

Laptops are not bookable and you can only sign out one laptop at a time. Laptops are re-imaged upon return to the Service Desk so be sure to save your document beforehand.

Check out the laptop policies and FAQs for further information. You can also borrow various computer accessories of the Service Desk on a first-come, first-serve basis including: laptop chargers, for both MacBooks and PCs; various adapters; Kensington pocket mice; microphones; external CD/DVD drives; webcams; and a French keyboard.

The library also offers other equipment for checkout, including: USB-C, iPhone, and Android phone chargers and wall adapters; business and scientific calculators; white board markers, slide, negative, and film scanners; light therapy lamps; and, you can even borrow a Sky Watcher Dobsonian 6 inch Telescope! Although the telescope separates into two sections for easy transport, you may want to bring someone with you to help with this. The kit also includes a bag with telescope extras and instructional materials. Loan periods vary for each type of equipment.

For a full list of items and loan information, visit the Equipment for Checkout webpage.

You can check the current status of any of these items, including laptops, through to the Library Catalogue.

Please note that some equipment is only available for checkout by current UPEI students, staff, and faculty.

And don't forget - you will need a UPEI Campus Card to sign out any material from the Service Desk. If you need help - just Ask US! We are here for you!
